## About Me

Web developer with experience in graphic design and business ownership. Strong eye for design. Frontend, backend, project and personnel management skills. Quick learner, ready to showcase and grow my abilities by creating projects for the greater good.

## Web Development Projects

### FlixFix Angular

- Full stack application created using Angular, TypeScript, MongoDB, Node.js, and Express.
- Uses client side interface to perform CRUD operations with MongoDB database.

### Don't Budge

- Recreated existing app from scratch using vanilla Javascript based only upon quick demo.
- Dynamically edited user elements and JavaScript arrays and objects simultaneously.

### ReactDex

- Pokedéx created in React allowing users to view, search, and sort a list of Pokémon.
- Connected a React app to a third party API to map and visualize data.
